# FITTING

## A. FITTING INFORMATION

Fixing points

For detailed fitting information, visit the Silent Gliss website.

**B. CEILING FITTING**

Direct fitting

**SYSTEM SAFETY KEY PARTS**

**A. SAFETY RELEASE  
FUNCTION**

A: Gliders can easily be clicked into profile

B: Glider deforms under pressure

C: Release under following pull weights:

Glider SG 6148 yellow: releases between 4 - 6 kg

Glider SG 6149 blue: releases between 8 - 10 kg

SG 6122: Endstop (with end glider SG 6148 in place)

SG 6021 / SG 6290 system can assist in the prevention of self harm in hospitals, schools and psychiatric situations. Please see specific pull out weights on individual gliders. Please also note that the longer the individual track and the more gliders used, the cumulative total pull-out weight when in a stacked position will increase and therefore support more weight.

**A risk assessment of the area should always be carried out.**
